**Re: Termination of Title V Operating Permit # TV-OP-002
Bio Energy LLC, 1994 Maple Street, West Hopkinton, New Hampshire
Facility Identification # 3301300101**

Dear Mr. Dell'Orfano:

On October 12, 2010, the New Hampshire Department of Environmental Services, Air Resources Division (DES) received a request from Bio Energy LLC to terminate the Title V Operating Permit issued to the facility located at 1994 Maple Street, West Hopkinton, NH. DES understands that Bio Energy LLC has been non-operational since May of 2002 and is in the process of being permanently closed. Therefore, the facility is no longer subject to New Hampshire Code of Administrative Rules, Env-A 607.01, *Specific Applicability for Temporary Permits*, and a permit is no longer required.

DES has determined that Bio Energy LLC has complied with all reporting requirements as specified in Title V Operating Permit No. TV-OP-002. In addition, DES has received all emissions-based fee payments from Bio Energy LLC for regulated emissions.

Based upon the determination above, in accordance with RSA 125-C:13, IV and at the request of the Permittee, the Director hereby terminates Title V Operating Permit No. TV-OP-002 issued to Bio Energy LLC on July 23, 1998 with the most recent Significant Modification dated July 25, 2003. The termination of the Title V Operating Permit shall be effective as of the date of issuance of this letter.

Should Bio Energy LLC wish to undertake any regulated operations in the future, it must obtain a temporary permit in accordance with Env-A 607, *Temporary Permits*, prior to the construction or modification of such source or device. If you have any questions, please contact Catherine Beahm of the Permitting and Environmental Health Bureau at (603) 271-2822 or via e-mail at catherine.beahm@des.nh.gov.

Sincerely,

Gary D. Milbury, Jr.
